

# Keep Space For Peace

International Week of Protest to Stop the Militarization of Space  
September 25 – October 2, 2004

The Bush Administration (after abandoning the ABM Treaty that outlawed missile defenses) plans to deploy missile defense interceptors before the next election as the next step toward controlling and dominating space. Fifteen interceptors (that have yet to be proven effective) will be put into the ground at Ft. Greely, Alaska and Vandenberg AFB, California. We oppose the development of the proposed "shield" from behind which pre-emptive strikes can be launched. Help build support for a U.N. sponsored ban on weapons in space. Contact us for educational materials, videos, action packets, and speaker lists for use in organizing local events to promote the peaceful uses of space.

This week of local events is being co-sponsored by:

Women's International League for Peace & Freedom ([www.wilpf.org](http://www.wilpf.org))

Global Network Against Weapons & Nuclear Power in Space ([www.space4peace.org](http://www.space4peace.org))
